

HARIHARAN S

Full Stack Developer

hariharansarav7@gmail.com | 9791680352 | Coimbatore

PROFESSIONAL SUMMARY

Enthusiastic Full Stack Developer with hands-on experience in building web applications using React.js, Next.js, Node.js, Express.js, SQL, and MongoDB. Skilled in REST API development, frontend-backend integration, CRUD operations, and database-driven applications. Experienced in developing responsive web interfaces and workflow-based systems, with knowledge of UI/UX design principles. Strong problem-solving, debugging, and collaboration skills with a passion for learning modern web technologies.

TECHNICAL SKILLS

- **Frontend:** React.js, HTML5, CSS3, JavaScript, Next.js, Responsive Web Design
- **Backend:** Node.js, Express.js, REST API Development, CRUD Operations
- **Programming Languages:** Java, Python, JavaScript
- **Databases:** MSSQL, MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, VS Code
- **UI/UX:** Figma, Adobe Photoshop, Wireframing, User Interface Design
- **Concepts:** Frontend-Backend Integration, Database Integration, Responsive Web Applications, Workflow-Based Systems

EXPERIENCE

Full Stack Developer Intern

Feb 2026 – Present

KG Agile, Coimbatore

- Worked on full-stack web application development using Next.js, React.js, Express.js, and MongoDB.
- Contributed to frontend development, backend integration, and REST API implementation.
- Used Postman for API testing and data handling validation.
- Worked on UI content design and responsive user interface improvements for better user experience.

Web App Development & Backend Engineering Intern

Jun 2025 – Jul 2025

Lakshmi Life Sciences Private Limited (LLS), Coimbatore

- Developed full-stack applications using React.js, Node.js, Express.js, and SQL databases.
- Built REST APIs and implemented CRUD operations for workflow and data management system.
- Worked on frontend and backend integration and responsive user interface development.
- Improved application performance through efficient database connectivity and backend integration.

IoT Intern

Nov 2023 – Dec 2023

Ascentz Technologies, Coimbatore

- Completed internship training focused on Internet of Things (IoT) concepts and applications.
- Gained practical exposure to IoT technologies, device connectivity, and real-time system monitoring.
- Learned fundamentals of sensor integration, embedded systems, and smart automation concepts.
- Demonstrated strong learning ability, punctuality, and teamwork throughout the internship period.

Administration Intern

Jan 2023

SRI Valves, Edayarpalayam

- Assisted in daily office administration and operational activities to ensure smooth workflow management.
- Managed office files, records, and documentation with proper organization and data handling.
- Supported administrative tasks related to data management and document maintenance.
- Coordinated with team members to maintain accurate records and improve office efficiency.

Audit Management System

Tech Stack: React.js, Node.js, Express.js, MSSQL

- Developed a full-stack Audit Management System with REST API integration and MSSQL database connectivity.
- Implemented CRUD functionalities for managing audits, observations, and workflow operations.
- Designed responsive workflow-based user interfaces and optimized backend integration for improved application performance.

Students Choice Global

March 2025

Tech Stack: Next.js, Node.js, Express.js

- Worked on full-stack web application development as part of a collaborative team during the KG Agile internship.
- Developed and maintained responsive web pages using Next.js with frontend and backend integration and REST API connectivity.
- Contributed to dynamic data handling and feature development across multiple application modules.

Backend API Integration & UI Development – V Do Naturals

April 2025

Tech Stack: Node.js, Express.js, JavaScript

- Worked on admin panel development and backend API integration for an e-commerce web application.
- Handled frontend-backend connectivity and dynamic data integration for website operations.
- Contributed during the UI/UX design phase by framing and organizing content for product pages and website sections.

Green Wheels Supply Chain Website

Dec 2023

Tech Stack: HTML5, CSS3, JavaScript

- Developed a responsive business website with structured navigation and user-friendly interface design.
- Worked on frontend development and responsive layouts for better accessibility across devices.
- Improved overall website presentation and user experience.

Smart Tribal Farming Project (Ongoing)

Tech Stack: React.js, AI/ML, Data Analysis, Web Technologies

- Developing an AI-powered crop suitability and planning system for tribal farmers.
- Completed frontend development with responsive UI design.
- Working on AI model integration for crop prediction and farming recommendations.
- Collaborating with team members on data-driven agricultural solutions.
- Received the Best Paper Award for innovative application of AI in agriculture.

EDUCATION

B.Tech in Artificial Intelligence & Data Science

KGiSL Institute of Technology

- CGPA: 7.5 till 6th Sem

2024 – Present

Diploma in Computer Engineering

Sri Ranganathar Institute of Polytechnic College

- Percentage: 81%

2021 – 2024

ADDITIONAL INFORMATION

- Quick learner with adaptability to modern web technologies
- Experienced in collaborative team-based development environments
- Passionate about Full Stack Development and responsive web applications
- Familiar with UI/UX design principles and user-focused interface development
- Familiar with Postman, GitHub, and database management for application development
